Design Interior Fit Out

Site Safety Audit—23 March 2020

"It was pleasing to observe that suitable measures have been adopted regarding the current Covid-19 Pandemic. One example of good practice observed today was the Profixed operatives completing self-declaration health checks every morning. Good dust mitigations strategies have been adopted by the Profixed team. Suitable extraction devices and air cubes have been identified within the cutting stations."

Site Safety Audit—1 September 2020

"Good housekeeping standards throughout the site, especially within the Profixed work areas. All towers on site have been erected in the correct manner. The Profixed team deserve credit for the good safety conditions throughout the project."
